

Installing Certificates in Netscape Navigator

Step 1. Open your **Netscape** Web browser and enter <http://www.cmu.edu/myandrew-files/software/ServerCertificates> into the Address field and press Enter.

Result: The Web Certificates at CMU page appears.

Step 2. Click the Download! button next to CA Server (All Systems)

OS	Size	Updated	Version	Download
CA Server (All Systems)	NA	8/1/2001	NA	Download!

Result: The “New Certificate Authority screen” comes up.

Step 3. Click Next

Result: A second “The New Certificate Authority” screen comes up.

Step 4. Click Next

Result: A third “The New Certificate Authority” screen comes up.

Step 5. Click Next

Result: A fourth “The New Certificate Authority” screen comes up with three check boxes.

Step 6. Click first check box (Accept this Certificate Authority for Certifying network sites).

Step 7. Click Next

Result: By accepting this certificate authority...window comes up.

Step 8. Click Next

Result: Window with name field comes up.

Step 9. Enter CMU into the Name field, and then click Finish.

Result: You're done. Enjoy!
